

Schools on Board Lab/Fieldwork Activity Example

(As it appears in the Student Handbook!)

MICROBIAL COMMUNITIES IN THE COASTAL ARCTIC OCEAN

Field Researcher: Sébastien Roy, Université Laval *Subgroup:* Microbial communities and heterotrophy

This fieldwork will take place: both inside and outside.
Students should be prepared appropriately for outdoor conditions.

Duration of the Fieldwork: Water column sampling – to be discussed

Most Appropriate Time: To be discussed on board

Number of Students: Full group

Special Requirements: Appropriate clothing
